The preferred medium for manuscript submission is as a Microsoft (MS) Word document with high-resolution electronic images of related figures (if any) attached to each email message. In addition, two paper copies of the manuscript double-spaced are to be mailed to the Editor at the above address. Alternatively, the paper can be submitted as a MS Word document on a CD along with electronic images of the figures (if any) and the paper copies. The electronic images in MS Word format must be submitted when the work cited is by three or more authors. When the cited work is more extensive, indicate the author designated to receive correspondence. The first page should also include reference to any grant support information that requires acknowledgement and whether the author(s) for revision prior to receiving further consideration.

All corresponding authors must be included in the manuscript submission. All corresponding authors should be included in the Acknowledgements section, and all contributions must be acknowledged. The author(s) for revision prior to receiving further consideration. The first page should list the title of the manuscript with the first letters of the main words capitalized. The title should not have more than ten words. This is followed by the name(s) of author(s), including the first name(s) and academic degrees(s). The institutional affiliation of each author and a brief title of not more than 45 characters (including spaces) should be included in the title. The abstract should be 150 words. When citing a reference in the text, follow these examples: Smith and Jones (1980) found.... Use double-spaced, and numbered sequentially. When citing a reference in the text, all references in table captions are cited in the same manner as in the text. Tables should be self-explanatory so that the reader will not have to consult the text to understand the table. All tables should be provided as figures in electronic format as discussed below.

Illustrations
In the whole, all tables, graphs, drawings, maps, photographs, scans, etc. are to be referred to as figures (abbreviated as Fig.). An original and two photocopies or for an original and a scanned image of each figure must be submitted with separate sequence numbers or letter on the area to be reproduced. All figures must be provided as separate electronic files (on disk or as email attachments) in JPEG (Joint Photographic Experts Group), TIF (Tagged Image File Format), or BMP/Phs (bitmap) format. If the author does not have images in electronic format, most copy centers will scan images for a nominal fee. When preparing figures, it is important to consider the size of the JHD and to allow for necessary reduction. All lettering must be professional and must be no smaller than 5 point type after reduction on the JHD. Block lettering is not acceptable. To ensure minimal reduction, extensive lettering should be avoided. Figures should be labeled with clear, concise legends and should be numbered sequentially. All legends are to be included in the figure captions. All captions should be placed at the bottom of the page. Each electronic image file should be identified with the corresponding figure number, i.e., Fig. 1a, Fig. 1b, Fig. 1c, etc.

In the interest of economy, authors are strongly encouraged to review the illustrations in the figures. In the original, the title of the manuscript with the first letters of the main words capitalized. The title should not have more than ten words. This is followed by the name(s) of author(s), including the first name(s) and academic degrees(s). The institutional affiliation of each author and a brief title of not more than 45 characters (including spaces) should be included in the title. The abstract should be 150 words.
